# Rhea Light ID™

## Intelligent Private Health Expert

Intelligent temperature sense

Collagen reconstruction

Surround output

Swan's modeling 360° solid quality

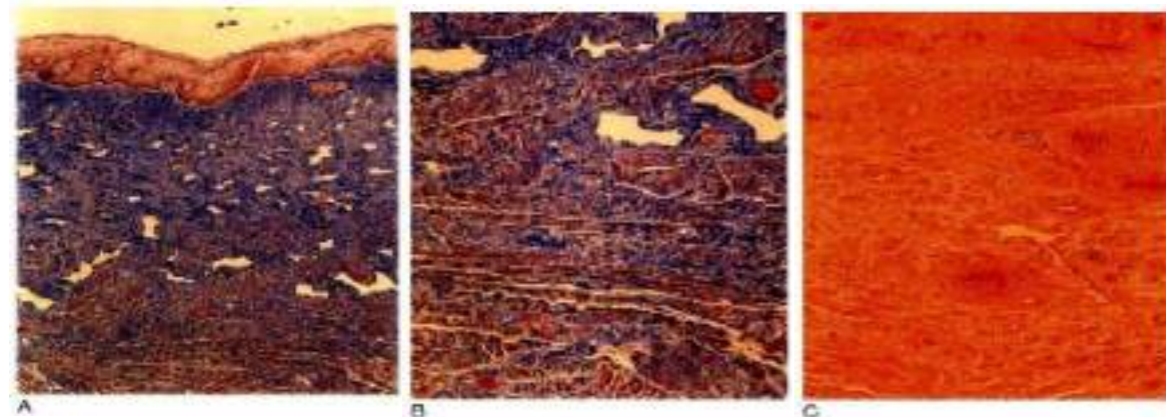

Independent desktop Portable

Elegant and Small Remarkable

Rhea Light mini is light and practical. It is accurate and safe without reducing energy, and has multiple advantages such as "deep penetration, fast effect, short treatment course, lasting effect, and with wide indications" to ensure that the energy of each applicator can evenly penetrate the entire muscle tissue. It has been recognized and widely used by global theaters due to its convenience, non-invasive and quick results.

### Revolutionary Technology

Through multi-frequency radio waves, heating acts on the connective tissues in the private depths, reorganizing elastic fibers to promote a large amount of new collagen, and maintaining a safe temperature on the surface.

**Strictly selected biomedical metal materials.**  
**Sterile applicators are safe and hygienic.**

#### VAL applicator

It is designed to fit the vaginal wall, which is safe and comfortable to care for the inner membrane.

Strictly selected biomedical metal materials with strong energy conductivity and stable performance.

#### VUL applicator (Vulva, Body)

The uniquely designed multi-site applicator is more suitable for use. Selected medical metal materials. Excellent conductivity and corrosion resistance. The energy acts on the skin efficiently. Intelligent temperature control settings is warm and comfortable.

#### Unique medical applicator

Strictly selected high-quality medical materials, with high energy efficiency on the skin.

#### Smart chip

The intelligent identification the applicator is new, and high-precision energy output at one time to ensure that the right person for a special use.

#### Safe, hygienic and comfortable

Medical disposable applicator, safe and hygienic, intelligent temperature control, comfort level enhancement.

### Immediate Effect

1 treatment firmness +30%

### Achievable effect after treatment

Firmness +80%

Pelvic floor muscle control +30%

Urinary incontinence reduction-2.8 points

Itching symptoms-18.5%

Six hormone levels +30%
