Upgraded 4.0 Generation

Four Handpieces

Four Handpieces Simultaneously Deliver High ROI to Maximize efficiency with the ability to treat multiple clients at once.

Seven-Size Cups

7 Cup Sizes Available to tailor treatments for individual needs by selecting from a range of cup sizes, enhancing personalization and effectiveness.

360° Cooling Effect

Elevate client experience with advanced cooling technology that ensures superior comfort, safety, and effectiveness throughout treatments.

360° Freeze Your Fat Away

The 4th generation of the CoolSlimming® Fat Freezing Machine is a versatile and advanced equipment in the world of non-invasive fat reduction. With the seven different sizes of cups, this machine is designed to cater to a wide range of target areas on the body. This capability allows for a more customized and precise treatment approach, ensuring that individuals can address specific areas of concern effectively.

[DETAIL - ORIENTED →](#)

Patented Vacuum Massage*

Long-time suction of target tissues brings uncomfortable experiences during the treatment process and increase the risk of tissue frostbite. Our Vacuum Massage* patent of fat freezing machine solves this beauty industrial challenge. This technology ensures the safe treatment while providing customers with a more comfortable and relaxed experience.

360° Surrounding: Reach the target temperature faster than previous models, maximizing time efficiency and convenience for both patients and practitioners.

Personalized Handpieces

Not only 4 handpieces can work at the same time, practitioners can also adjust cooling and suction levels independently to provide customized sessions for their patients.

This enhanced applicators selectively target fat cells without harming surrounding tissues, providing a safer and more effective sculpting option for individuals seeking to refine their bodies.

PZLASER®

Liam Jackson ★★★★★

"Our clients are loving the results from CoolSlimming® treatments! The machine is a remarkable device for targeting stubborn fat areas and sculpting the body. Highly recommended!"

Isla Harper ★★★★★

"The CoolSlimming® at our spa delivers impressive, non-invasive fat reduction results that leave our clients thrilled with their transformations. It's a must-have technology for those seeking to contour their body effectively."

Oscar Flynn ★★★★★

"Investing in a CoolSlimming® for our spa has been a fantastic decision. The technology is safe, effective, and delivers noticeable fat reduction for our clients. We are proud to offer this cutting-edge treatment for body shaping."

FAQ

Q How long do the results of CoolSlimming® last? -

The results of CoolSlimming® are intended to be long-lasting, as the treated fat cells are permanently eliminated from the body. However, maintaining a healthy lifestyle with proper diet and exercise is important to prevent new fat cells from accumulating in the treated areas.

Q What areas of the body can be treated with a CoolSlimming® machine? -

CoolSlimming® is designed to target specific areas of the body where stubborn fat deposits tend to accumulate, such as the abdomen, flanks (love handles), thighs, double chin, and upper arms. Treatment applicators come in various shapes and sizes to address different body areas effectively.

Q How long does a CoolSlimming® session take? -

A typical CoolSlimming® session can last anywhere from 35 minutes to an hour per treatment area. Multiple areas can be treated in one
